THE WORLD

Began in 1919

Chernobyl disaster(1986)

Now our culture become evermore unhealthy and humanity will more and more have to make out of the educational process a healing process against all the things that make us sick in our environment.

—Rudolf Steiner

**The problem of society,
is the problem of education**

**The problem of education,
is the problem of medical care**

The understanding of "health" is not only about the fate of the individual.

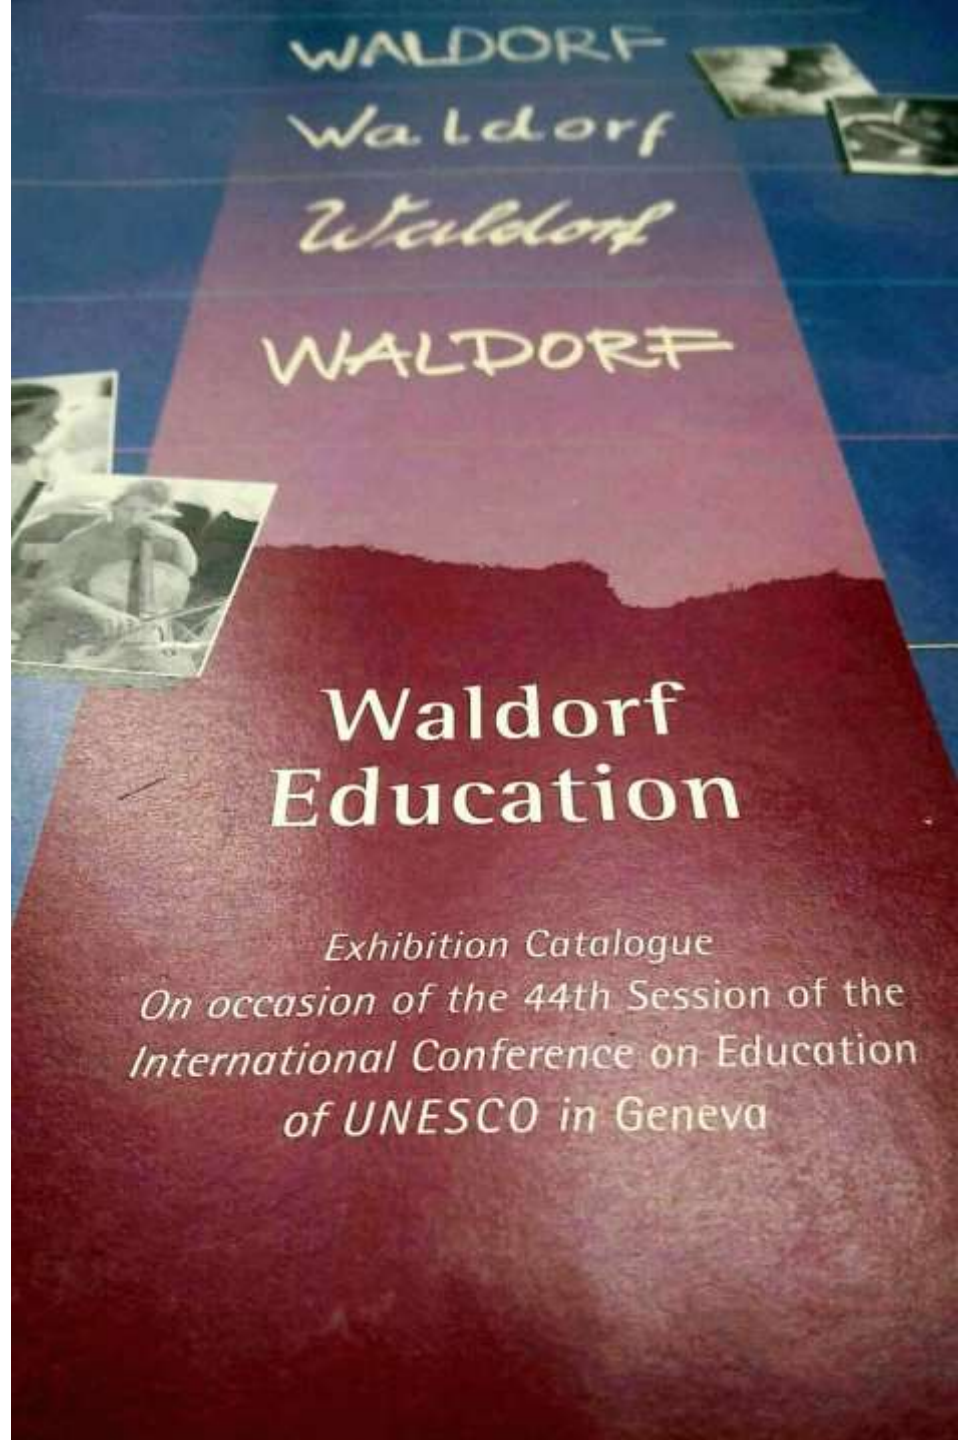

It also maintains social, economic, and cultural development.

—Rudolf Steiner

**The healthy social life is found
When in the mirror of each human soul
The whole community is shaped
And when in the community
Lives the strength of each human soul**
